

Dwarf mistletoe on hemlock (*Arceuthobium tsugense*)

**Dwarf mistletoe on fir (*Arceuthobium*)**

Parasitic Plants

**Dwarf mistletoe on Douglas-fir (*Arceuthobium*)**

The background of the slide features a repeating pattern of stylized green leaves and stems, rendered in a flat, graphic style. The leaves are elongated and pointed, with visible veins. The stems are thin and branch out, creating a dense, layered effect. The overall color palette is various shades of green, from light to dark, set against a dark green background.

dodder – *Cuscuta* spp.

**Other parasitic plants to be aware of**
