

## Instructions

In order to play the presentations you will need a couple of things.

1. To get the best out of the presentation, you need to make it full screen. The presentation was designed for 800x600 pix. screen resolution to suit older resolution settings.

Check and change the screen resolution on your computer!

1. click START
  2. CONTROL PANEL
  3. find and double click on DISPLAY
  4. click on the SETTINGS tab
  5. use the slider to set your "Screen resolution" to 800 x 600
  6. click OK or APPLY
2. Double click on the presentation to open it. When the player starts running click on View and Full Screen or press CTRL + F to get rid of the top menu bar. In order to see the menu again press ESC.
3. You might need Macromedia (Adobe) Flash player installed on your computer.  
(Get Adobe Flash Player :
